

Tudor City, a historic district in Midtown Manhattan, was built in the late 1920s as the first residential high-rise neighborhood in the world. Envisioned as an urban oasis with private parks and buildings, this structure was designed using the architectural style of the 16th century Tudor Dynasty of England.

The land where Tudor City was constructed was originally country estates owned by some of New York's wealthiest families. By the mid-1800s, the neighborhood had deteriorated, and the area became known as "Goat Hill" due to the number of goats and squatters that lived there. Over the next 50 years, the area became the epicenter for crime, ruled by the famous Irish gangster Jimmy "Paddy" Corcoran and his "Rag Gang". Up until Tudor City was built, the area was known as "Corcoran's Roost." The movie *Gangs of New York* starring Leonardo DiCaprio was patterned after this neighborhood.

Intimately tucked away just a few blocks from the United Nations and Grand Central Station, in the heart of the former historic Tudor City Hotel, is Tudor City Tavern. Our craft cocktails, fine spirits and legendary whiskeys fuse timeless Prohibition era cocktails with contemporary craftsmanship for a truly exceptional assortment. We pay homage to the rich history and lure of Tudor City and deliver a unique experience.

Horse Soldier® Bourbon

Horse Soldier® is a uniquely complex bourbon expression, aged in new American Oak barrels. Crafted by the men who answered America's call just days after 9/11 with a daring insertion into northern Afghanistan by small teams of Green Berets mounted on horseback. These brave and unconventional acts earned them the moniker of the Horse Soldiers.

These same men were featured in the Hollywood film *12 Strong*, in the documentary *Legion of Brothers* and are memorialized by the America's Response Monument at Ground Zero. Horse Soldier® bottles are pressed from steel molds created from the steel of the World Trade Center.

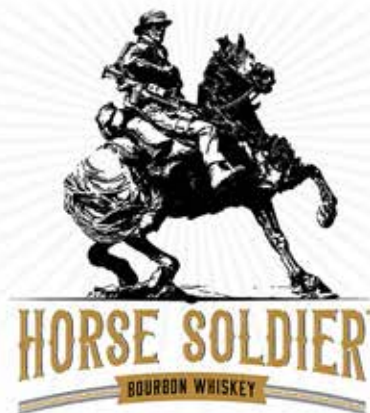

The Guest who purchases the last shot keeps the bottle.
