

# AIR RIFLE RANGE RULES

Follow All Instructions Given by the Range Master  
Read and Follow All Posted Signs  
Failure to Follow the Rules and Instructions Will Lead to  
Removal From the Gun Range

1. Only shooters are allowed on the range.
2. Always treat any gun as a loaded gun and keep the gun pointed downward in a safe direction.
3. Do not detach or remove the gun from the shooting stall.
4. Never pump the gun more than once; pumping more than once will result in ejection from the range without a refund.
5. Eye protection is required to be worn at all time.
6. Keep your finger off the trigger until ready to fire.
7. Never look directly down the barrel of the gun.
8. Keep your hands and other objects away from the trigger and keep the safety on during all pumping and loading. Be careful of "pinch points" on the gun.
9. Misuse or careless use may cause serious injury.
10. Use only the projectiles you are provided.
11. Never, for any reason, cross the safe area and go down range.
12. If a projectile does not fire from the loaded rifle, place the gun onto the gun rest with the barrel pointed in a safe direction and summon assistance from a Range Officer.
13. Know your target and what is down range of it; make sure the area is clear and unoccupied.
14. Failure to follow the rules and instructions will lead to the removal from the gun range.
